TYLER D. HOFFMAN

tdhoffman@asu.edu • https://tdhoffman.com • https://github.com/tdhoffman

EDUCATION

Arizona State University, Tempe, AZ *2021 - 2026 (estimated)*
Ph.D, Geography; advised by Professor Peter Kedron
NSF Graduate Research Fellowship Recipient

Arizona State University, Tempe, AZ *2022*
M.A., Geography

University of Maryland, College Park, MD *2017 - 2021*
B.S. with High Honors, Mathematics; minors in Computer Science and History
President's Scholarship Recipient; Earned University Honors Certificate in April 2019

PUBLICATIONS

P. Kedron, S. Bardin, **T. D. Hoffman**, M. Sachdeva, M. Quick, J. Holler. (2022). "A Replication of DiMaggio et al. (2020) in Phoenix, AZ." Annals of Epidemiology.

W. F. Fagan, C. Saborio, **T. D. Hoffman**, E. Gurarie, R. S. Cantrell, C. Cosner. (2022). "What's in a resource gradient? Comparing alternative cues for foraging in dynamic environments via movement, perception, and memory." Theoretical Ecology, open access, 1-16.

**equal contributions*

CONFERENCE PROCEEDINGS

T. D. Hoffman, P. Kedron. (2022). "Operationalizing Spatial Causal Inference." UCSB Spatial Data Science Symposium 2022 Short Paper Proceedings.

T. D. Hoffman, T. Oshan. (2021). "A Supervised Heuristic for a Balanced Approach to Regionalization." GIS Research UK Conference Proceedings. https://doi.org/10.5281/zenodo.4670015

GRANTS AND AWARDS

ACM SIGSPATIAL 2022 Travel Grant *2022*
Award Recipient

— The award is worth $1,000. Received a travel grant to attend the 2022 ACM SIGSPATIAL conference in Seattle, WA.

The College Graduate Excellence Award *2022*
Award Recipient

— The award is worth $100. Received the ASU College of Liberal Arts and Sciences Graduate Excellence Award for excellent academic and research work in the 2021-2022 academic year.

NSF Graduate Research Fellowship Award *2021 - 2026*
Award Recipient

— The award is worth $169,450 over five years. Received the National Science Foundation Graduate Research Fellowship Award for graduate work in computationally intensive research in the social sciences.

University Graduate Fellowship *2021*
Award Recipient

— The award is worth $3,000. Received a University Graduate Fellowship from the ASU School of Geographical Sciences and Urban Planning for work over summer 2021.

Maryland Undergraduate Researcher of the Year Award *2021*
Award Recipient

— The award is worth $1,000. Received the Maryland Undergraduate Researcher of the Year award recognizing fruitful pursuits of learning and scholarship beyond the classroom.

UMD Flagship Fellowship *2021*
Award Winner (declined)

— The award is worth $60,000 over 4 years. Received but declined the Flagship Fellowship for graduate studies at the University of Maryland, College Park.

Math Department Strauss Teaching Assistant *2020 - 2021*
Award Recipient

— The award is worth approximately $20,000. Received the Strauss Teaching Assistant award to teach a section of Calculus I in the fall and Calculus II in the spring.

UMD President's Scholarship *2017 - 2021*
Award Recipient

— Received a merit scholarship worth $32,000 over four years.

RESEARCH EXPERIENCE

Google Summer of Code, Python Spatial Analysis Library *2022*
Contributor

— Extended Wilkinson formulas to spatial regression models (repository).
— Designed `scikit-learn` style interfaces for spatial regression models in the Python Spatial Analysis Library (repository).

GIScience, Kedron Lab, Arizona State University *2021 - Present*
Graduate Researcher

— Designing methods to enable causal inference in spatial settings.
— Integrating novel ideas of process into geographic information systems.

Spatial Data Science, GEOSMASH Lab, University of Maryland *2020 - Present*
Affiliate (2021-Present); Previously Undergraduate Researcher (2020-2021)

— Developing open source software for the widespread use of spatial interaction modeling and the study of spatial scale.

— Software has been incorporated in the Python Spatial Analysis Library (PySAL) Spatial Interaction (SpInt) module and can be found at this Github link.

Mathematical Biology, Fagan Lab, University of Maryland *2018 - 2021*
Undergraduate Researcher

— Designed and implemented a complex system model to study the evolution of vision.
— Pursued novel modeling techniques in the fields of population dynamics and movement ecology by partial differential equations (PDEs) and agent-based simulations to examine forager motion.
— Analyzed dynamical systems relating to the spread of disease and the vector-host relationship.

Computational Statistics, University of North Carolina Greensboro *2020*
Research Experience for Undergraduates (REU) Participant

— Employed unsupervised learning for outlier detection in topological data analysis settings to extract insights from sea ice datasets.

Structural Acoustics, Naval Surface Warfare Center Carderock Division *2019*
Naval Research Enterprise Internship Program (NREIP) Intern

— Evaluated new finite and boundary element methods to solve computationally hard problems relating to acoustic-structure interaction.
— Created a tool which implements a boundary element method for arbitrary geometries.

Math Directed Reading Program, University of Marylad *2018*
Participant

— Studied manifold theory under the direction of a graduate student mentor.
— Delivered a talk proving that the Klein bottle cannot be embedded in three dimensions.

CONFERENCES AND WORKSHOPS

T.D. Hoffman, T. Oshan. (2022). "A model-driven approach to regionalization and spatial change-of-support." Association of American Geographers 2022 Annual Meeting.

T.D. Hoffman, T. Oshan. (2021). "A Supervised Heuristic for a Balanced Approach to Regionalization." GIS Research UK (GISRUK) 2021.

T. Hoffman, A. Swain, K. Leyba, W.F. Fagan. (2020). "Perceptual evolution: How the spatially explicit interplay of biological and environmental factors shapes resource uptake." Ecological Society of America 2020 Meeting.

UMD COMBINE Network Epidemiology Online Workshop Series *2020*
Participant

— Attended a series of lectures from prominent epidemiological network scientists on cutting-edge techniques in the field and their relevance to the contemporary coronavirus epidemic.
— Led a team of graduate students and postbacs to research epidemiological network science and produce a poster which introduces and explains current research for public health officials.

LEADERSHIP

School of Geographical Sciences Graduate Student Committee *2022*
President

— Elected President of the committee for the 2022 calendar year. The President serves as an immediate liaison between the faculty and administration and the graduate student body.

Model United Nations Team *2017 - 2021*
Senior Executive Advisor; Vice President; Undersecretary-General for Crisis at UMUNC I

— Vice President and founding member of the University of Maryland Model United Nations Team.
— Helped to raise the team from unranked to Top 50 nationwide in two seasons.
— Outstanding Delegate (Second Place), William & Mary Model UN Conference (April 2019)
— Honorable Delegate (Third Place), NYU Model UN Conference (April 2018)

University Senate, College of Computer, Mathematical, and Natural Sciences *2018 - 2019*
Senator and Programs, Courses, and Curricula (PCC) Committee Member

— Participated in Senate discussions on campus affairs. Engaged in coalitions to better the university.
— Reviewed proposals for new and modified majors, minors, and certificate programs as a member of the Programs, Courses, and Curricula Committee.

SKILLS AND LANGUAGES

Proficient in	Python, Julia, Unix/Linux/Bash, LaTeX, MATLAB/Octave, C, Java, OCaml
Familiar with	R, APL, Lean, Netlogo, Fortran, Rust, Go, Ruby, Perl, French, Arduino, HTML/CSS
